Nothing beats in-ear monitors when you need to hear yourself and everything else as clearly as possible on stage. MP Series Professional In-Ear Monitors offer the clarity and bass response you need to perform your best while being comfortable enough to wear all night.

FEATURES

SOUND ISOLATION AND COMFORT

Ergonomically molded low-profile enclosure offers maximum comfort, sound isolation, and bass response.

PREMIUM DRIVERS

Specially selected dynamic and balanced armature drivers offer the perfect balance of vocal clarity and ample low-end for optimal performance on stage.

HIGH-FIDELITY CABLE

The shielded, braided cable is designed for extra durability and sonic performance.

FIND YOUR SOUND

With a single driver, and two dual driver models available, you can find the in-ear monitors that work best for you.

MP-120
Single Dynamic Driver Professional In-Ear Monitors

PROFESSIONAL DESIGN

- Ergonomically molded low-profile enclosure offers maximum comfort, sound isolation, and bass response

MADE FOR ARTISTS

- MP-120 in-ear monitors deliver the performance and comfort that artists need to be in tune with the stage

PRECISION DYNAMIC DRIVER

- With a single high-performance dynamic driver, the MP-120 delivers responsive, full-range sound.

HIGH-FIDELITY CABLE

- The shielded, braided cable is designed for extra durability and sonic performance
- Equipped with a detachable MMCX connector that swivels for increased comfort and durability
- The over-ear design keeps them securely in your ears and the cables behind your head for uninterrupted performance

PERFECT FIT

- With three different types of ear tips included and in three different sizes, you can choose what works best for your ears to provide maximum comfort and sound isolation
- Ear tip types included are foam, silicone, and double flange in small, medium, and large sizes

INCLUDED ACCESSORIES

- Hard molded case protects your investment when not in use
- Gold-plated 1/8" to 1/4" adapter

SPECIFICATIONS

- Frequency Response: 20 Hz – 20 kHz
- Impedance: 32 Ohms
- Transducer Type: Single Dynamic
- Sensitivity: 102 dB

MP-220
Dual Dynamic Driver Professional In-Ear Monitors

PROFESSIONAL DESIGN

- Ergonomically molded low-profile enclosure offers maximum comfort, sound isolation, and bass response

MADE FOR ARTISTS

- MP-220 in-ear monitors deliver the clarity, performance, and comfort that artists need to perform their best

DUAL PRECISION DRIVERS

- With dual precision dynamic drivers, MP-220 in-ear monitors offer powerful bass response and enhanced clarity

HIGH-FIDELITY CABLE

- The shielded, braided cable is designed for extra durability and sonic performance
- Equipped with a detachable MMCX connector that swivels for increased comfort and durability
- The over-ear design keeps them securely in your ears and the cables behind your head for uninterrupted performance

PERFECT FIT
